

## WOODTRENDS CUSTOM

09510/SOU  
BuyLine 2123

In addition to six standard wall and ceiling systems, WoodTrends offers unique flexibility for customizing any system to meet the most demanding design criteria.

WoodTrends Custom can include special support systems, precut light and HVAC openings, custom perforations and slot patterns or special stains and finishes.

WOODTRENDS acoustical treatments in wood are available from Sound Seal® throughout the U.S. For the representative nearest you or for product information, please call 800.569.1294 or visit us online at [www.wood-trends.com](http://www.wood-trends.com).
